

Purpose/ Definition

Arguments are used for many purposes:

- To change the reader's point of view
- To bring about some action on the reader's part
- To ask the reader to accept the writer's explanation or evaluation of a concept, issue, or problem

An argument is a reasoned, logical way of demonstrating that the writer's position, belief, or conclusion is valid.

Persuasive Strategies

- **Appeal to the credibility, character, or authority of the writer (or speaker).**
- **Appeal to the audience's self interest, sense of identity, or emotions**

LOGICAL ARGUMENT

Convinces the audience because of the perceived merit and reasonableness of the claims and proofs offered rather than either the emotions the writing evokes or the writer's character or credentials
